

Impact on Farmers

As Great depression hit - Japans exports fell.

- affected the income of people - which resulted in lower demand for farmers produced
- -> caused income of farmers to fall by average 43% between 1929 and 1931
- Tenant farmers - tried to get landowners to reduce their rent -> but they disagreed
- landowners - even tried to evict tenant farmers - who could not pay rent but many resisted
- tenant farmers -> organised themselves into unions.
 - they held protest meetings and took landowners to court. sometimes disputes turned violent.
