

Control of Education

education system ⇒ already had strong emphasis on national pride + importance of Japanese traditions.

⇒ also stressed Shinto Beliefs, loyalty to the emperor, and the community over the individual.

Govt ⇒ continued to strengthen their control of Japan thru education

1937 ⇒ Ministry of education ⇒ published document ⇒ *Fundamentals of our national policy* ⇒ used it as a basis for Japans education system.

- document was distributed to officials and educators ⇒ was intended to guide teachers in calculating Japanese traditional ethics in their students.
-

Japanese curriculum ⇒ sought to instil sense of patriotism in young Japanese and was centred on ultranationalist and militarist ideals.

- also contained large amounts of physical exercise, military style drilling and technical lessons designed to prepare youths for war
-
