

# To Limit German Access to Information and Ideas

Goebbels ⇒ kept strict control over what Germans could read hear and watch

No books, paintings or other art forms could be produced without Nazi approval.

→ there was also heavy censorship and newspapers → could not print anti Nazi ideas.

- all films had to carry pro Nazi messages
  - newsreels shown along with films ⇒ also proclaimed Nazi achievements
- Government ⇒ made cheap radio available ⇒ so all Germans could buy one and listen to Nazi propaganda when aired
- harsh penalties for anyone who listened to unauthorized stations

All these restrictions ⇒ enforced strictly.

Gestapo agents and informers ⇒ monitored anyone thought to be producing or consuming banned works.

Police, SD, Gestapo ⇒ would arrest any offenders + take them to concentration camps.
